

28 July 2017

Quarterly Activities Report **for the period ended 30 June 2017**

1 GROOTFONTEIN BASE METAL PROJECT

The Company holds an 80% interest in the Grootfontein Base Metal Project. The Project is located in the Otavi Mountain Land (OML), north east Namibia (Figure 1). The OML is a globally significant base metal province with production coming from several mines, including the now closed Tsumeb, Kombat, Abenab, and Berg Aukas.

The Company's landholding stands at 209km², with a further 473.4km² under application. There are four recognised base metal trends with extensive strike lengths located within the tenement package, namely the Askevold, Khusib, Pavian and Abenab Trends. These advanced projects have been the main focus of the Company's exploration efforts.

On its tenements and applications, Deeps holds two of the five historically important mines of the Otavi Mountain Land – Abenab and Christiana (formerly Abenab West). Both mines have only been tested over short strike lengths, with significant exploration upside available to Deeps.

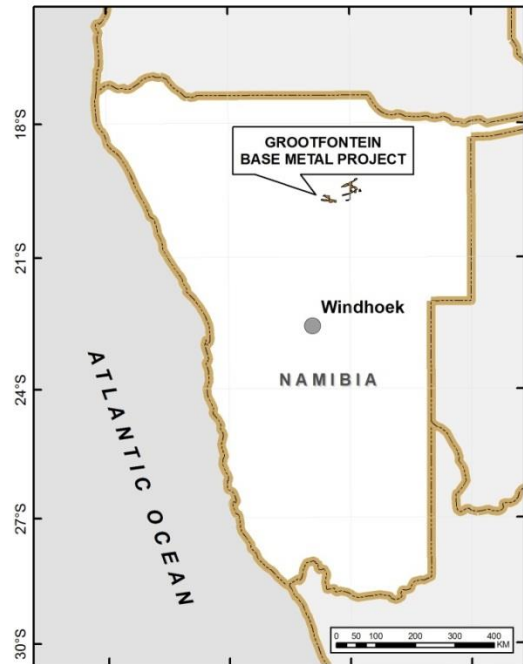

Figure 1 - Location of the Company's Namibian projects.

Activities during the Quarter

Due to ongoing delays by the Namibian Ministry of Mines and Energy in granting licence applications and renewals, only minor work was conducted on the Grootfontein Base Metal Project during the quarter.

Golden Deeps carried out further preparations for the submission of applications for several mining licences during the quarter. Selected sites include the Deblin Cu-Ag Mine, the Christiana Zn-Pb-Ag Mine and the Khusib Springs Mine. The application process requires submission of extensive documentation, including resource reports, scoping studies, detailed geological studies and environmental reports.

During the quarter, further progress was made on the collection and collation of data for the submission including resource reports, drilling data and detailed geological map information. Work also continued on preparation for the required Environmental Impact Assessments.

Two tenements, EPL 3744 and EPL 3745 were relinquished during the quarter.

Competent Person Declaration

The information in this report that relates to Exploration Results is based on information compiled by Dean Goodwin, who is a consultant to Golden Deeps Limited and a member of The Australasian Institute of Geoscientists. Mr Goodwin has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves". Mr Goodwin consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Forward-Looking Statements

This document may include forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning Golden Deeps Limited's planned exploration programme and other statements that are not historical facts. When used in this document, the words such as "could," "plan," "estimate," "expect," "intend," "may", "potential," "should," and similar expressions are forward-looking statements. Although Golden Deeps Limited believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements.

APPENDIX 1 –Schedule of tenements

Schedule of Mining and Exploration Tenements						
Country	State/Region	Project	Tenement ID	Area Km²	Grant Date	Interest %
Namibia	Otjozondjupa	Grootfontein Base Metals	EPL 3543	89	12/09/2006	80
			EPL 3743	120	28/08/2007	80
			EPL 5232	260	Application	Application
			EPL 5233	63	Application	Application
			EPL 5234	8.4	Application	Application
			EPL 5496	13	Application	Application
			EPL 5509	56	Application	Application
			EPL 5510	73	Application	Application
